## Carbide Grinding Company, Inc.

1136 DILTS STREET P. O. BOX 175 CHESTERFIELD, INDIANA 46017  
(765) 378-3309 FAX (765) 378-5150

### Ceramic Remanufacturing Program

#### Customer Responsibilities :

1. Collection of used ceramic material for remanufacturing
2. Ship used material to Carbide Grinding Co., Inc.  
1136 Dilts Street  
Chesterfield, IN 46017
3. Place orders for remanufactured items as needed

#### Carbide Grinding Responsibilities :

1. CGI will presort and evaluate all used material upon the receipt of the used material shipment. An "Available for Order Spreadsheet" will be provided to the customer for each used material shipment that is received.
2. Used material will be placed in process for customer jobs as orders are received or immediately placed into process, if the blanket order method (with stocking requirements) is preferred.
3. CGI will remanufacture all ceramic items with 100% inspection to adhere to all aerospace quality standards. The customer will only receive back and be charged for good tools. Fall-out from each item will automatically be available for remanufacturing to the next smaller size.

Thank You,

Mike Stires
